

Environmental and Sustainability Policy

Watto's Earthmoving & Machinery Hire is a leading earthmoving contractor throughout the Atherton Tablelands and surrounds, specialising in development and delivery of civil contracting services including road reconstruction, dam building, building platforms, sub-divisions, drainage, and all major earthworks, along with wet, and dry machinery hire.

Watto's Earthmoving & Machinery Hire Pty Ltd (WEMH) has identified environmental management as one of its highest corporate priorities.

The organisation will establish policies, programmes and practices to reduce risk to the environment and the organisation and conduct business activities in an environmentally sound manner.

The organisation is committed to environmental management and will:

- integrate its environmental policies and procedures fully into all business activities as a critical element,
- comply with all environmental legislation, standards and contract requirements that are applicable to the company's operation, and to other requirements to which the organisation subscribes.
- Commitment to the establishment, maintenance and on-going continual improvement of the companies Environmental objectives and targets.
- Commitment to the measurement of Environmental objectives and targets is achieved through quarterly management reviews.
- continually improve its environmental performance and prevention of environment impact and considering current best practice, technological advances, current scientific understanding, customer and community needs,
- educate, train and promote workers to work in an environmentally responsible manner,
- complete environmental assessments for aspects and impacts of all new activities that the company may undertake,
- promote, develop and design services, facilities, equipment and work practices that have the least environmental impact, considering the efficient use of energy and materials, the sustainable use of renewable resources and the responsible disposal of waste, thereby minimising any serious or irreversible environmental degradation,
- commitment to minimising the company's fossil fuel usage and pollution.
- promote and encourage the adoption of these principals by suppliers and contractors acting on behalf of the organisation,
- develop, implement and maintain emergency preparedness plans,
- foster openness and dialogue with both workers and the public, encouraging them to respond with their concerns or improvement ideas within the scope of the organisation's operations and maintain a set of environmental objectives and targets that are monitored through the management review process to ensure effectiveness.
